

2019 CONFERENCE PROGRAM

11TH ANNUAL CONFERENCE

Creating Excellence, Innovation,
and Value in the Evolving
Clinical Research Enterprise

OCTOBER 21 - 23, 2019
HILTON - CITY AVENUE,
PHILADELPHIA, PENNSYLVANIA, USA

Dear Friend and Colleague,

It is with great enthusiasm that I personally invite and welcome you to the 11th Annual International Association of Clinical Research Nurses' Conference in Philadelphia, Pennsylvania as we **"Create excellence, innovation and value in the evolving clinical research enterprise."**

In celebration of our 11th Annual conference IACRN will be hosting a 3-day conference, offering many opportunities to network with international clinical research nurses, forums for discussion and exchange best practices, and a chance to learn from experts. There will be many prominent speakers, along with information-packed workshops and roundtables. We would be delighted to have you join us at this year's conference to hear what our national and international colleagues have to share about clinical research.

As IACRN makes strides to advance clinical research nursing practice globally, I encourage you to become involved; assist in developing, disseminating, and promoting accepted practices for clinical research nursing, and heightening the awareness of the contributions made by nurses within the research endeavor. You will hear important updates from the Board and Committee Chairs at the conference that may help you identify an area of interest.

I look forward to the opportunity to learn from all of you and celebrate clinical research nursing together!
Most Sincerely,

Mary Larkin

Our Vision

Enhancing clinical research quality and safety through specialized nursing practice.

Our Mission

The *International Association of Clinical Research Nurses* is a professional nursing organization. Its purpose is to define, validate and advance clinical research nursing as a specialty practice and to support the professional development of registered nurses who directly or indirectly impact the care of clinical research participants across all clinical specialties.

Our Members

Clinical Research Nursing is the specialized practice of professional nursing focused on maintaining equilibrium between care of the research participant and fidelity to the research protocol. This specialty practice incorporates human subject protection, care coordination and continuity, contribution to clinical science, clinical practice, and study management throughout a variety of professional roles, practice settings, and clinical specialties.

THE ROCKEFELLER UNIVERSITY HOSPITAL

HEILBRUNN FAMILY CENTER FOR RESEARCH NURSING

Heilbrunn Nurse Scholar Award

Funding for the Heilbrunn Family Center for Research Nursing at the Rockefeller University and the associated funds to support the Heilbrunn Nurse Scholar Awards is made possible by a generous endowment from Helaine Lerner and her sister Joan Rechnitz in honor of their parents Harriet and Robert Heilbrunn

ELIGIBILITY: Registered nurses in a doctoral program who have completed their dissertation proposal defense, or doctorally-prepared nurses who are actively engaged in nursing science.

SUBMISSION DETAILS: The Heilbrunn award is a 1-2 year program that provides financial support for nurses to pursue independent research projects and make a contribution to the discipline of nursing. The maximum amount of funding per proposal is \$25,000 (total). Applications are due between January 20-30, 2020. All applicants will be notified of the disposition of their proposal by April 15, 2020.

For additional information: http://heilbrunnfamily.rucare.org/Nurse_Scholar_Award or email HeilbrunnFCRN@rockefeller.edu
